

# Components:

# Instructions:

1. Insert the Banner Bar through the slots at the top of the QuickFold Upright
2. Attach the strip on the top of the Banner to the strip on the Banner Bar inserted at the top of the QuickFold Upright
3. Attach the strip of the other Banner Bar to the strip at the bottom of the Banner to hold it flat and taut.

## Banner Kits

Banners are ideal for displaying more detailed information in addition to your backdrop. Unlike traditional pop-up banner stands, these graphics can be easily switched out to engage a different audience from show to show. Our break-free system is also more durable and longer lasting than the traditional spring loaded pop-ups that tend to break unexpectedly after use.

Not just for trade shows, these banners are a perfect complement for community events, corporate branding, and even in-store message displays.

Our team of graphic designers will create a visually impactful display guaranteed to make your message stand out all on a durable, reusable printed fabric with an easy to set up stand. We hope you love your new Banner Stand Kit and can't wait to see your exciting, attention-grabbing graphics in action.
