1 Open hoop and string the panel pockets onto the hoop.

2 String 4, 6, 8, or 12 drape panels and close Hoop.
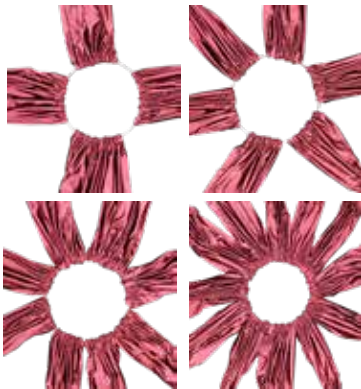

3 Using the holes along the edge of the hoop, add the C-Hooks (or other attachements) for hanging.

4 Attach the C-Hooks to the desired ceiling attachment (Drop Ceiling Hooks are included to be used with Drop Ceilings).

5 String the other ends of each Drape panel onto clear acrylic tubes. Use positioning clips to hold drape.

6 Place the C-hooks or other attachments through the holes at the end of Clear Acrylic Tubes.

7 Spread drape to desired design for a beautiful display.
