(f) Valance Hangers

Note: The Universal Clamp or Valance Hangers are optional pieces of hardware you can use to attach your fabric backdrop to an existing trade show booth. You can either connect the Universal Clamp near the top of the Uprights on both sides of your booth, or insert the Valance Hangers into the slots of each Upright. Then insert the hooks on each end of your Foldable Drape Support into the slots on the Universal Clamp or Valance Hangers.

1 Step One

Plan a location for your Kit.
Remove Cross Base (b) and 6" Pin (a) from your box.

2 Step Two

Unscrew the screw from the bottom of the Pin (a). Open the Cross Base (b) and screw the Pins together as shown.

3 Step Three

Remove the Quickfold Support (d) from the box. Open the Quickfold Support to its full extended length and place it on the ground where you are setting up your Portable Pipe&Drape Kit.

4 Step Four

Move the X Bases (b) to both ends of the Foldable Drape Support (d). The length of the assembled Foldable Drape Support will then act as a measurement guide for the width of your Backdrop.

5 Step Five

Assemble your Quickfold Uprights by unfolding them and connecting the pieces together.

6 Step Six

Place your Quickfold Uprights (c) on the assembled Cross Bases (b).

7 Step Seven

Remove your Backdrop from the carrying case and unfold it. Insert the Foldable Drape Support (d) into the top pocket of your Custom Exhibit Backdrop.

8 Step Eight

Insert the hook on one end of the Foldable Drape Support (d) into the slot on one of the Quickfold Uprights (c) and repeat for the other side. (Tip: Angle your Quickfold Upright (c) to easily access the second slot.)

9 Step Nine

Place your Upright back on the Pin and make sure the backdrop is stable.

10 Step Ten

Adjust your Backdrop until it is flat and smooth. Admire your display.
